# UNIVERSITY OF SOUTH ALABAMA FOUNDATION FOR RESEARCH & COMMERCIALIZATION CONFLICT OF INTEREST POLICY

The Board of Directors of the University of South Alabama Foundation for Research & Commercialization (USAFRC) has adopted the following policy for its officers and those persons serving on its board of directors (hereafter "Board" and/or "Directors").

- 1. Directors have an affirmative obligation to act at all times in the best interests of the University of South Alabama, or any of its divisions, affiliates, or supporting organizations, including, but not limited to, USAFRC (the "University"). This policy serves to define the term "conflict of interest" to assist members of the Board in identifying and disclosing such conflicts and to minimize the impact of such conflicts on the actions of the University whenever possible.
- 2. *Fiduciary duty*. Each Director has a fiduciary duty to conduct himself or herself without conflict to the interests of the University. When acting within his or her capacity as a Director, he or she must subordinate personal, business, third-party, and other interests to the welfare and best interests of the University.
- 3. *Conflict of interest*. A "conflict of interest" is any transaction or relationship which presents, or may present, a conflict between a Director's obligations to the University and his or her personal, business, or other interests. A conflict of interest may arise in any circumstance that may compromise the ability of a Director to make unbiased and impartial decisions on behalf of the University. Such circumstances may involve family relationships,<sup>1</sup> business transactions, professional activities, or personal affiliations.

Further, Alabama Code §13A-10-62 (1975) provides:

- (a) A public servant commits the crime of failing to disclose a conflict of interest if he exercises any substantial discretionary function in connection with a government contract, purchase, payment or other pecuniary transaction without advance public disclosure of a known potential conflicting interest in the transaction.
- (b) A "potential conflicting interest" exists, but is not limited to, when the public servant is a director, president, general manager or similar executive officer, or owns directly or indirectly a substantial portion of any non-governmental entity participating in the transaction.
- (c) Public disclosure includes public announcement or notification to a superior officer or the attorney general.
- (d) Failing to disclose a conflict of interest is a Class A misdemeanor.

<sup>&</sup>lt;sup>1</sup> Family relationships include spouse, child, grandchild, parent, grandparent, sibling, niece, nephew, aunt, uncle, cousin, in-laws and step relations, as well as any person living in the household of a Director.

- 4. *Disclosure*. The Board of Directors recognizes that conflicts of interest are not uncommon, and that not all conflicts of interest are necessarily harmful to the University. However, the Board requires full disclosure of all actual and potential conflicts of interest. Each Director shall disclose any and all facts that may be construed as a conflict of interest, both through an annual completion of a Statement of Disclosure, and completion of an amended Statement of Disclosure whenever such actual or potential conflict occurs.
- 5. *Process*. Any actual or potential conflicts which are presented in a Statement of Disclosure or amended Statement of Disclosure will be evaluated for action, as needed, by the Chair of the Board of Directors. The Vice Chair of the Board, if evaluating a possible conflict of the Chair, may either handle the evaluation on his or her own, or refer it to the Board for further consideration. Additional information from a Director may be sought at any time. A Director whose potential conflict is under review may not debate, vote, or otherwise participate in the evaluation of the conflict. If a conflict is being evaluated or has been found to exist, the Director shall recuse himself or herself from any discussion or voting regarding transactions involving the area of conflict.
- 6. *Resolution*. If it is determined that an actual or potential conflict of interest does exist, an appropriate remedy shall be determined. Such remedy may include, but is not limited to, the following:
  - Waive the conflict of interest as unlikely to affect the Director's ability to act in the best interests of the organization.
  - Determine that the Director should be recused from all deliberation and decisionmaking related to the particular transaction or relationship that gives rise to the conflict of interest.
- 7. *Policy regarding Directors doing business with the University.* A conflict of interest exists any time a Director seeks to enter into a business relationship with the University. Similar conflicts may arise through family members or through organizations in which a Director serves in a leadership, employment, or ownership capacity.

Such conflicts do not necessarily preclude business relationships with the University. The following procedure is designed to resolve conflicts of interest whenever a Director or a member of his or her family (see footnote number 1) has an ownership interest in, is a director, officer, or key individual of an entity which intends to enter into a business relationship with the University:

- The Director must promptly disclose the intent to enter into a business relationship with the University to the Chair of the Board of Directors.
- The Director must recuse himself or herself from all deliberation, debate, and voting related to the contemplated business relationship.

- The Chair, or the Board if the issue is referred by the Chair, must determine without the presence or participation of the Director under review that the transaction is fair and in the best interest of the University.
- If the business relationship under consideration is approved, the Director may not participate in any process by which his or her performance as a vendor or recipient is evaluated, or in any such evaluation of a related party.

Notwithstanding the foregoing, contracts or proposals for purchases of goods, property, or services will not be awarded to organizations in which a Director either:

- Holds an interest of ten percent (10%) or greater, or
- Serves as a director or senior executive officer, if a substantial part of the contract or proposal involves the quality of performance (i.e., possibly requiring enforcement of a performance bond or filing suit for non-performance). Also, no Director shall advocate or attempt to influence the employment by the University of any member of his or her family.

## **Endowment Funds Investment Policies and Guidelines**

## **II. Purpose of the Investment Policy**

This investment policy is set forth by the Board of Trustees of the University of South Alabama in order to:

- 1. Define and assign the responsibilities of all involved parties.

- 6. Establish the relevant investment horizon for which the Endowment Funds assets will be managed.

In general, the purpose of this policy is to outline a philosophy and attitude which will guide the investment management of the assets toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical.

## **III. Delegation of Authority**

The Board of Trustees of the University of South Alabama is responsible for directing and monitoring the investment management of the University's Endowment Funds assets. As such, the Board of Trustees is authorized to delegate certain authority to professional experts in various fields. These include, but are not limited to:

The consultant may assist the Board of Trustees in: establishing investment policy, objectives, and guidelines; selecting investment managers; reviewing such managers over time; measuring and evaluating investment performance; and other tasks as deemed appropriate.
- 2. Investment Manager(s). The investment manager has discretion to purchase or sell, in the University's name, the specific securities that will be used to meet the Endowment Funds investment objectives.

The custodian may also perform regular accounting of all assets, owned, purchased or sold as well as movement of assets into and out of the Endowment Funds accounts.

With the exception of specific limitations described in these statements, managers will be held responsible and accountable to achieve the objectives herein stated. While it is not believed that the limitations will hamper investment managers, each manager should request modifications which they deem appropriate. All expenses for such experts must be customary and reasonable, and will be borne by the Endowment Funds as deemed appropriate and necessary.

# IV. Assignment of Responsibility

## A. Responsibility of the Board of Trustees of the University of South Alabama

The Board of Trustees is responsible for the management of the assets of the Endowment Funds. The Board of Trustees shall discharge its duties in good faith like an ordinary prudent person in a like position would exercise under similar circumstances and in a manner the Trustees reasonably believe to be in the best interest of the University. The Board of Trustees will supervise the Endowment Committee and assigns the following authority and responsibilities to the Endowment Committee on behalf of the Board of Trustees.

## **B. Responsibility of the Endowment Committee**

The specific authority and responsibilities of the Endowment Committee relating to the

investment management of Endowment Funds assets include:

- 1. Projecting the Endowment Funds financial needs, and communicating such needs to the Investment Manger(s) on a timely basis.
- 2. Determining the Endowment Funds risk tolerance and investment horizon, and communicating these to the appropriate parties.
- 3. Establishing reasonable and consistent investment objectives, policies, time frames and guidelines which will direct the investment of the Endowment Funds assets.
- 4. Prudently and diligently selecting qualified investment professionals, including Investment Manager(s), Investment Consultant(s), and Custodian(s).
- 5. Regularly evaluating the performance of the Investment Manager(s) to assure adherence to policy guidelines and monitor investment objectives progress.
- 6. Developing and enacting proper control procedures: For example, replacing Investment Manager(s) due to fundamental changes in the investment management process, or failure to comply with established guidelines.
- 7. Making direct investments in cases in which selection of an investment manager is not appropriate.
- 8. Recommending an endowment spending policy to the Board of Trustees for approval.
- 9. Reporting periodically to the Board of Trustees Endowment Committee actions and recommendations and investment performance of the Endowment Funds.

## C. Responsibility of the Investment Manager(s)

The Endowment Funds will be managed primarily by external investment advisory organizations; both commingled vehicles and separate accounts may be used. The investment manager(s) have discretion, within the guidelines set forth in this policy statement and any additional guidelines provided them, to manage the assets in each portfolio to achieve the investment objectives. Managers will normally manage only one type of investment in each fund. For example, equities and fixed income will not be combined in a balanced fund with one manager.

Each Investment Manager must acknowledge, in writing, their acceptance of responsibility as a fiduciary. Each Investment Manager will have full discretion to make all investment decisions for the assets placed under their jurisdiction, while observing and operating within all policies, guidelines, constraints, and philosophies as outlined in this statement. Each Investment Manager will be provided with a copy of this statement of investment objectives and policies. In turn, as part of the investment management contract that will govern their portfolio, the Investment Manager is expected to provide a written statement of the firm's expectations, stated in terms of the objectives and comparative benchmarks that will be used to evaluate performance and the allowable securities that can be used to achieve these objectives. These statements will be consistent with the statement of investment objectives and policies and will be incorporated as appendices. Specific responsibilities of the Investment Manager(s) include:

- 1. Discretionary investment management including decisions to buy or sell individual securities, and to alter asset allocation with the annual guidelines established by the Endowment Committee.
- 2. Reporting, on a timely basis, quarterly investment performance results.
- 3. Providing monthly valuation of the investment portfolio based on the previous month's closing prices.
- 4. Communicating any major changes in economic outlook, investment strategy, or any other factors which affect implementation of investment process, or the investment objectives progress of the Endowment Funds investment management.
- 5. Informing the Endowment Committee regarding any qualitative change in the investment management organization. Examples include changes in portfolio management personnel, ownership structure, investment philosophy, etc.
- 6. Providing the Endowment Committee with proof of liability and fiduciary insurance coverage.
- 7. Acknowledging in writing an ability and agreement to invest within the guidelines set forth in the investment policy.
- 8. Meeting with the Endowment Committee at least annually.
- 9. Voting proxies on behalf of the Endowment Funds and communicating such voting records on a timely basis. In cases in which the University desires to vote proxies related to specific topics, it will so notify Manager(s).
- 10. The Board of Trustees may from time to time request that the Investment Manager(s) allocate commissions to those brokerage firms providing other investment management services to the University. Good execution and commission prices are primary considerations in routing business to the said brokerage firms. If at any time any Investment Manager believes that any policy guideline inhibits investment performance, it is their responsibility to communicate this to the Endowment Committee.

## V. General Investment Principles

- 1. Investments shall be made solely in the interest of the purposes of the University of South Alabama.
- 2. The Endowment Funds shall be invested with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person in a like position would exercise under similar circumstances in a manner the Board of Trustees reasonably believe to be in the best interest of the University.

- 3. Investment of the Endowment Funds shall be so diversified as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.
- 4. The Board of Trustees may employ one or more investment managers of varying styles and philosophies to attain the Endowment Funds objectives.
- 5. Cash is to be employed productively at all times, by investment in short term cash equivalents to provide safety, liquidity, and return.

# VI. Investment Objectives

In order to meet its needs, the investment strategy of the University of South Alabama Endowment Funds is to emphasize total return; that is, the aggregate return from capital appreciation and dividend and interest income. The total Endowment Funds shall be monitored for return relative to objectives, consistency of investment philosophy, and investment risk. The Endowment Funds results shall be evaluated on a rolling five-year basis against a market benchmark weighted 40 percent in favor of the S&P 500 Index, 5% Russell 2000 Index, 12% MSCI EAFE (US Dollar) Index, 23 percent toward the Barclay's Capital US Aggregate Bond Index, 10% HFRI Fund of Funds Conservative Index and 10% HFRI Fund of Funds Strategic Index.

### VII. Portfolio Composition and Risk

A. To achieve its investment objective, the Endowment Funds assets are considered as divided into three parts a fixed income component, a fixed income alternative component, an equity component and a private equity component. The Endowment Funds long-term commitment to these funds shall be as follows:

Asset Class	Range	Long-Term Neutral
Fixed Income	15-35%	25%
Equity	35-75%	50%
Private Equity	0-10%	5%
Fixed Income Alternative	10-30%	20%
Cash	0-10%	0%

The purpose of dividing the Endowment Funds in this manner is to ensure that the overall asset allocation among major asset classes remains under the regular scrutiny of the Endowment Committee and is not allowed to become the residual

of separate manager decisions. Over the long run, the allocation among the major asset classes may be the single most important determinant of the endowment funds investment performance.

The purpose of the fixed income fund is to provide a hedge against deflation, to reduce the overall volatility of returns of the Endowment Funds, in order to produce current income in support of spending needs.

The percentage of total Endowment Funds assets allocated to the fixed-income fund at any time should be sufficient to provide that neither the current income nor the capital value or the total Endowment Funds declines by an intolerable amount during an extended period of deflation. The fixed-income fund should normally represent approximately 15-35 percent of total Endowment Funds assets at market value. Although the actual percentage will fluctuate with

market conditions, levels outside this range should be closely monitored by the Endowment Committee.

The purpose of the equity fund is to provide appreciation of principal that more than offsets inflation and to provide a growing stream of current income. It is recognized that the pursuit of this objective could entail the assumption of greater market variability and risk than investment in fixed-income securities. Equity and equity-substitute investments are broadly defined as common stocks, high-yield bonds, reorganization securities, private equity, venture capital, leveraged buyout investments, equity real estate, reorganization securities, exchange traded index funds, etc. Investments made in such less liquid equity investments should be made through funds offered by professional investment managers.

The purpose of the fixed income alternative component is to provide the Endowment a source of returns with low correlation to equity markets and volatility of one third to one half that of the U.S. equity market, while still achieving equity-like returns of Treasury Bills plus 2-8% over time. The Fixed Income Alternative should normally represent approximately 10-30 percent of total Endowment Funds.

Any assets not committed to the fixed-income fund or fixed income alternative shall be allocated to the equity fund and the private equity fund. The equity fund should normally represent approximately 35-75 percent of total Endowment Funds assets at market value. The private equity fund should normally represent approximately 0-10 percent of total Endowment Fund assets at market value. Although the actual percentage of equities will vary with market conditions, levels outside these ranges should be closely monitored by the Investment Committee.

Asset Class	Long-Term Strategic Target (%) of Endowed Funds	Range
		00.000/
Domestic Equity	42%	30-60%
Large/Mid-Cap	35%	25-55%
Small Cap	5%	3-8%
High Yield Debt	2%	0-5%
International Stocks	10%	5-15%
Developed Markets	6%	3-10%
Emerging Markets	4%	0-6%
Private Equity	5%	0-10%
TOTAL EQUITY	57%	35-75%
COMPONENT		
Alternative Investments	20%	10-30%
Absolute Return	15%	12-20%
Long/Short Equity	5%	0-10%
TOTAL ALTERNATIVE	20%	10-30%
COMPONENT		
Fixed Income	23%	15-35%
U.S. Core Bonds	16%	12-20%
Global Bonds	4%	0-7%

The Endowment includes investments in several categories, and the Endowment Committee targets allocations for the following:

Asset Class	Long-Term Strategic Target (%) of Endowed Funds	Range
TIPS	2%	0-5%
Emerging Market Debt	1%	0-2%
TOTAL FIXED INCOME COMPONENT	23%	15-35%
Cash and Equivalents	0%	0-10%

Within the equity fund, certain investments can be included, with Endowment Committee approval, to provide a hedge against unanticipated, rapidly accelerating inflation. These include cash, real estate and oil and gas investments. While the Endowment Committee recognizes the argument for having a separate allocation to inflation-hedging assets, at this time, these investments are evaluated primarily as equity-substitutes. The Endowment Committee will periodically review the adoption of an inflation-hedging fund allocation separate from the equity allocation.

Within the equity fund, in addition to cash reserves held by managers, there is normally an investment in cash or short-term instruments. Although the Endowment Committee has not adopted a cash allocation, new gifts to the endowment and endowment income in excess of budgetary distributions generate cash inflow to the Endowment Fund. The level of cash should be closely monitored by the committee.

The Endowment committee may change any of the above ratios; however, it is anticipated that these changes will be infrequent.

The Endowment Funds investments shall be diversified both by asset class (e.g., equities and fixed-income securities) and within asset classes (e.g., within equities by economic sector, geographic area, industry, quality, and size). The purpose of diversification is to provide reasonable assurance that no single security or class of securities shall have a disproportionate impact on the endowment funds aggregate results. Equity securities in any single industry will not exceed 20 percent, nor will equity securities in any single company exceed 10 percent of the market value of the endowment's allocation to equities.

# VIII. Spending Policy

It shall be the policy of the University of South Alabama Board of Trustees to preserve and maintain the real purchasing power of the principal of the Endowment Funds. The current spending policy of the University will be determined annually by the President and the Endowment Committee and approved by the Board of Trustees. The spending guideline is based on an expected total return over the long-term less expected inflation.

# IX. Volatility of Returns

The Board of Trustees understands that in order to achieve its objectives for Endowment Funds assets, the Funds will experience volatility of returns and fluctuations of market value. The Board will tolerate volatility as measured against the risk/return analysis of the appropriate market indices. The indices used as a measure of an investment manger's performance will be used to measure the allowable volatility (risk).

# X. Liquidity

To minimize the possibility of a loss occasioned by the sale of a security forced by the need to meet a required payment, the Vice President for Financial Affairs will periodically provide Investment Manager(s) with an estimate of expected net cash flow. The Vice President will notify the Investment Consultant in a timely manner, to allow sufficient time to build up necessary liquid reserves. Because of the infrequency of cash\_outflows and overall marketability of Endowment Funds assets, the Board of Trustees does not require the maintenance of a <u>dedicated</u> cash or cash equivalent reserve.

# XI. Marketability of Assets

The Board of Trustees requires that all Endowment Funds allocated to cash equivalents, fixed income securities or equity securities be invested in liquid securities, defined as securities that can be transacted quickly and efficiently for the Endowment Funds, with minimal impact on market price. The Board of Trustees recognizes that opportunities may exist in illiquid assets and will allow Investment Managers overseeing Private Equity or Fixed Income Alternatives to invest in securities that may be less liquid and could present a risk of illiquidity.

### **Derivative Securities: options and future contracts**

Also, derivative securities may be used by the Investment Manager in order to hedge certain risks to the portfolio. The approval and use of derivative securities will not be allowed unless the Endowment Committee is confident that the Investment Manager(s) thoroughly understands the risks being taken, has demonstrated expertise in their usage of such securities, and has guidelines in place for the use and monitoring of derivatives.

**Real Estate:** Investments may also include equity real estate, held in the form of professionally managed, income producing commercial and residential property. # C. Guidelines for Fixed Income Alternatives

1. Fixed Income alternative investments will be defined as any strategy using a partnership or offshore investment company structure that may or may not be subject to SEC registration, investing primarily in marketable securities and/or subject to a performance fee. These strategies would generally have absolute, as opposed to relative, return objectives driven more by manager skill and market inefficiency than market direction. Use of leverage, short selling and/or derivatives may or may not be employed as part of the investment approach. The endowment will employ a manager of manager's approach to investing in fixed income alternative investments.

# **D.** Limitations on Manager Allocations

- 1. No more than 5% of the Endowment Fund assets shall be allocated to an individual Investment Manager.
- 2. No more than 25% of the Endowment Fund assets shall be allocated to a "Fund of Funds" or multi-manager fund.

# XIII. Investment Manager Performance Review and Evaluation

Performance reports generated by the Investment Consultant shall be compiled at least quarterly and communicated to the Board of Trustees for review. The investment performance of total portfolios, as well as asset class components, will be measured against commonly accepted performance benchmarks. Consideration shall be given to the extent to which the investment results are consistent with the investment objectives, goals, and guidelines as set forth in this statement. The Board of Trustees intends to evaluate the portfolio(s) over at least a three-year period, but reserves the right to terminate a manager for any reason including the following:

- 1. Investment performance which is significantly less than anticipated, given the discipline employed and risk parameters established, or unacceptable justification of poor results.
- 2. Failure to adhere to any aspect of this statement of investment policy, including communication and reporting requirements.
- 3. Significant qualitative changes to the investment management organization.

Investment managers shall be reviewed annually regarding performance, personnel, strategy, research capabilities, organizational and business matters, and other qualitative factors that may impact their ability to achieve the desired investment results.

# UNIVERSITY OF SOUTH ALABAMA NON-ENDOWMENT CASH POOL INVESTMENT POLICIES

# Purpose

The purpose of this Investment Policy is to provide a guideline by which the pooled funds (the current, loan, agency and plant fund groups) not otherwise needed to meet the daily operational cash flows for the University can be invested to earn a maximum return, yet still maintain sufficient liquidity to meet fluctuations in the inflow of funds from revenues, tuition payments and state appropriations.

The policies and practiced hereinafter set forth separate funds into three investment categories: (1) Short-term funds (2) Intermediate-term funds (3) Long-term funds.

# **INVESTMENT OBJECTIVES**

The investment objectives for Operational Funds Investments are: (1) to maximize current investment returns consistent with the liquidity needs of the University. In keeping with the investment objectives noted above, it is acknowledged that there are Operational Funds which require short-term, intermediate-term and long-term investment strategies.

It is expected that the maturities of the investments in the Operational Funds will be matched against the cash flow needs of each campus to maximize yields consistent with the liquidity needs of the University.

# **Maintenance of Adequate Liquidity**

The investment portfolio must be structured in such a manner that will provide sufficient liquidity to pay obligations such as normal operating expenses and debt service payments as they become due. A liquidity base will be maintained by the use of securities with active secondary markets, certificates of deposit, or repurchase agreements. These investments could be converted to cash prior to their maturities should the need for cash arise.

# **Return on Investments**

The University seeks to optimize return on investments within the constraints of each investment objective. The portfolio strives to provide a return consistent with each investment category. The cash pool portfolio rate of return will be compared with the returns of broad indices representing the investment and maturity structure of the Pool.

# **DELEGATION OF AUTHORITY**

The Board of Trustees is ultimately responsible for investment policy. By Board Resolution the Board of Trustees is delegating investment authority to the President or Vice President for Financial Affairs or other such persons as may be authorized to act on their behalf.

The Investment Policy is established to provide guidance in the management of the University's Non-Endowment Cash Pool to insure compliance with the laws of the State of Alabama and investment objectives. The Vice President for Financial Affairs or his designee is accorded full discretion, within policy limits, to select individual investments and to diversify the portfolio by applying their own judgments concerning relative investment values.

# **IMPLEMENTATION OF THE INVESTMENT POLICY**

The Vice President for Financial Affairs or his designee is authorized to execute security transactions for the University investment portfolio. Reports of investments shall be presented to the Endowment and Investment Committee of the Board of Trustees.

# AUTHORIZED INVESTMENT INSTRUMENTS

# **Short-Term Operational Funds**

# Safety of Capital

Preservation of capital is regarded as the highest priority in the handling of investments for the University of South Alabama. All other investment objectives are secondary to the safety of capital.

It is assumed that all investments will be suitable to be held to maturity. However, sale prior to maturity is warranted in some cases. For example, investments may be sold if daily operational funds are needed or if the need to change the maturity structure of the portfolio arises.

All investments will be restricted to fixed income securities with the maturity range to be consistent with the liquidity needs of the pooled fund groups. It is essential that cyclical cash flow be offset by liquid investments. Permissible investment instruments may include:

- 1. Checking and Money Market deposit accounts in banks. These funds are subject to full collateralization for the amounts above the FDIC \$250,000.00 coverage limit, or participation by the Bank in the State of Alabama's Security for Alabama Funds Enforcement Program.
- 2. Certificates of Deposit issued by banks and fully collateralized for the amounts above the FDIC \$250,000.00 coverage limit or participation by the bank in the State of Alabama's Security for Alabama Funds Enforcement Program. Negotiable Certificates of Deposit or

Deposit Notes issued by credit worthy U.S. Banks in amounts not to exceed the FDIC \$250,000.00 coverage limit.

- 3. Direct obligations of the United States or obligations unconditionally guaranteed as to principal and interest by the Unites States.
- 4. Obligations of a Federal Agency (including mortgage backed securities) or a sponsored instrumentality of the United States including but not limited to the following:
  - Federal Home Loan Bank (FHLB)
  - Federal Home Loan Mortgage Corporation (FHLMC)
  - Federal Farm Credit Banks (FFCB)
  - Government National Mortgage Association (GNMA)
  - Federal National Mortgage Association (FNMA)
  - Student Loan Marketing Association (SLMA)
  - Financing Corp (FICO)
  - Tennessee Valley Authority (TVA)
  - Government Trust Certificates (GTC)
- 5. Commercial paper of corporate issuers with a minimum quality rating of P-1 by Moody's, A-1 by Standard and Poor's or F-1 rating by Fitch. Corporate bonds will maintain a minimum "A" rating by both Moody's and Standard and Poor's at the time of purchase. No more than ten percent (10%) of the Total Cash and Investments shall be invested in a single corporation for Commercial Paper/Short-term Corporate Bonds and thirty-five percent (35%) per Federal Agency Obligation as described above. There will\_be no limit on U.S. Treasury Obligations. All such securities must have an active secondary market.

The maturity range of Short-Term Operational Funds Investments shall be consistent with liquidity requirements of the funds category. However, funds established under certain debt instruments may be invested in accordance with the applicable criteria. Typical maturity will range from one day to one year.

# **Intermediate-Term Investment of Operational Funds**

Investments for those Operational Funds designated by the President as benefiting from investment over a one- to three-year period.

Permissible investments are consistent with all investments approved under short-term operational funds within a one- and three- year investment period. It is expected that the maturities of the investments within the intermediate-term funds will match against the cash flow needs of the University and to maximize yields consistent with the liquidity needs of the University.

# **Long-Term Investment of Operational Funds**

From time to time management may have the opportunity to invest Operational Funds designated by the President to achieve higher earnings over a longer time horizon. These funds will be invested based on the Non-endowment Equity and Alternative Investment Pool Guidelines referenced in Appendix A.

# PASS THROUGH OR DESIGNATED FUNDS

This policy shall also cover pass through funds (endowment funds to be forwarded to external endowment fund managers) and any funds managed by the University and designated for specific purposes and not covered by individual investment restrictions (i.e. endowment funds that may not be co-mingled, bond proceeds during construction, USA Health Plan, etc.)

# PRUDENCE AND ETHICAL STANDARDS

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing the overall portfolio. Persons performing the investment functions, acting in accordance with these written policies and procedures, and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations and appropriate recommendations to control adverse developments are reported in a timely fashion. The "prudent person" standard is understood to mean:

"Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

# **EFFECTIVE DATE**

This policy shall become effective immediately upon its adoption by the Board of Trustees. Further, this policy shall be reviewed at least annually and updated whenever changing market conditions or investment objectives warrant.

# Appendix A

# University of South Alabama

# Non-Endowment Equity and Alternative Investment Pool Guidelines

# Purpose

The purpose of the University's Non-Endowment Equity and Alternative Investment Pool (Equity and Alternative Pool) is to maximize returns for those operating funds that are not utilized for day to day cash management needs. These funds will have a seven- to ten- year time horizon. The goal of the Equity and Alternative Pool is to provide revenue while preserving principal to fund University projects as set forth by the University President.

# **Return on Investments**

The University seeks to optimize return on these investments within the constraints of the Equity and Alternative Pool guidelines. The portfolio strives to provide a return consistent with each investment category.

# **Oversight and Delegation of Authority**

The Equity and Alternative Pool will be governed by the Non-Endowment Cash Pool Investment Policy. The Board of Trustees is ultimately responsible for the Non-Endowment Cash Pool Investment Policy. Investment oversight will be delegated to the President or Vice President for Finance and Administration or other such persons as may be authorized to act on their behalf.

# **Investment Objectives**

In order to meet its needs, the investment strategy of the Equity and Alternative Pool is to emphasize long-term growth; that is, the aggregate return from capital appreciation. The Equity and Alternative Pool shall be monitored for return relative to objectives, consistency of investment philosophy, and investment risk.

# **Portfolio Composition and Risk**

A. To achieve its investment objective, the Equity and Alternative Pool assets are considered as divided into two parts; an alternative investment component or hedged strategy and an equity component. Total Equity and Alternative Pool assets

should not exceed 25% of all non-endowment cash and cash-equivalents of the University as of September  $30^{\text{th}}$  of the prior fiscal year. This percentage will be reassessed periodically and any changes will be communicated to the Board. The Equity and Alternative Pool commitment to these funds shall be as follows:

	<u>Range</u>	Long-term neutral
Equity	45-85%	70%
Alternative Investment	10-35%	30%

- B. The purpose of the equity component is to provide appreciation of principal that more than offsets inflation and to provide a growing stream of capital appreciation and current income. It is recognized that the pursuit of this objective could entail the assumption of greater market variability and risk than investment in fixedincome securities. Equity and equity-substitute investments are broadly defined as common stocks, high-yield bonds, reorganization securities, venture capital, leveraged buyout investments, equity real estate, exchange traded index funds, etc.
- C. The purpose of the alternative investment component is to provide the Equity and Alternative Pool a source of returns with low to negative correlation to equity markets and volatility of one third to one half that of the U.S. equity market, while still achieving equity-like returns of Treasury Bills plus 2-8% over time. The alternative investment component should normally represent approximately 10-35 percent of the total Equity and Alternative Pool.
- D. Any assets not committed to the alternative investment component shall be allocated to the equity fund. The equity fund should normally represent approximately 45-85 percent of total the Equity and Alternative Pool assets at market value. Although the actual percentage of equities will vary with market conditions, levels outside this range should be closely monitored.
- E. The Equity and Alternative Pool includes investments in several categories:

Asset Class	Long-Term Strategic Target (%) of Funds	Range
DOMESTIC EQUITY	55%	40-70%
Large Cap	40%	30-65%
Mid Cap	10%	5-15%
Small Cap	5%	3-10%
INTERNATIONAL STOCKS	15%	5-25%
Developed Markets	10%	3-20%
Emerging Markets	5%	0-10%
TOTAL EQUITY COMPONENT	70%	45-85%
ALTERNATIVE INVESTMENTS	30%	10-35%
Absolute Return	30%	10-35%
TOTAL ALTERNATIVE COMPONENT	30%	10-35%
TOTAL	100%	

- F. Within the equity fund, certain investments can be included to provide a hedge against unanticipated, rapidly accelerating inflation. These include cash, real estate and oil and gas investments.
- G. The Equity and Alternative Pool investments shall be diversified both by asset class (e.g., equities and alternative investment securities) and within asset classes (e.g., within equities by economic sector, geographic area, industry, quality, and size). The purpose of diversification is to provide reasonable assurance that no single security or class of securities shall have a disproportionate impact on the endowment funds aggregate results. Equity securities in any single industry will

not exceed 20 percent, nor will equity securities in any single company exceed 10 percent of the market value of the endowment's allocation to equities.

# **Spending Policy**

It shall be the policy of the Equity and Alternative Pool to preserve and maintain the real purchasing power of the principal of the Fund. The current spending policy of the Equity and Alternative Pool will be determined annually by the University President. The spending guideline is based on an expected total return over the long-term less expected inflation and will use the excess return over the inflation adjusted principal using a 3 year moving average to help fund the operating needs of the University.

# Line of Credit

At times of extreme volatility related to the Equity and Alternative Pool a Line of Credit (LOC) will be utilized to meet day to day management of the University's operating needs. A LOC of up to \$30,000,000 will be established and available to meet those periods when operating cash is low due to seasonal tuition revenue. The LOC will be repaid in full as soon as sufficient cash is available. The Investment Manager will be required to inform the Vice-President for Finance and Administration, Treasurer and President and obtain appropriate approval of any draws and repayments on the LOC and will be required to provide them with balance reports throughout the year.
